## MADAM LASH'S PARLOR CAR ARRIVES

It's taken a long time but our girls fancy-pants palace on wheels has arrived & isn't she happy. Yes'iree, Madam's Palor car rolled out of the Silverton Shops lookin' sparklin' & gleamin' jest a hankerin' to git an injun to take her fur a spin down to Durangie & git the new refrigerator stocked up with the famous DW's, gold tops of coor's! Now this celebration wasn't without some troubles as it seems mother Brown's boys decided to take a peek inside & see what all the fuss was about for em'selves. The girls inside teased the young fella's & word soon got back home & mother dealt out the news herself. I think them boys won't be catchin' any bad habits or trains for a long time!

Hitching a ride on the train was a sure spanking

Well now, here she is looking absolutely bootiful in her new red dress, the Parlor car we mean. Mde too.

Gee'williker's this is one extravagant swanky "revenue" car that's sure to make our Madam happy & richer. Even Otto Beer's the D&RGS RR President seen here climbing onboard is impressed as his old "Edna" may be gittin past her peak & he may not keep her after seeing this?

Sparky Sparks took the K-HON3 broad cast unit onboard to air the morning's events & describe to the listeners what the board's were casting inside!

Barkeep was busy figgerin out how to open the door of the new receptacle for inbiderments down the back end & the Preacher brought along some whorely water (with wheat in it of coor's) to christen the vessel & all who sail in her. Such a good & noble chap is he.

The car lettering was done by "Brush" Strokes who finally sobered up enough to keep his hand steady but found it difficult to paint with the work going on inside at the same time. The new RR has simple lettering on the side - **DURANGO & SILVERTON** & Madam had "pure" white for her favorite number & name on the sides. Her long time friend & acquaintance had a birthday the same number, 69, & following the D&RGW numbering for their "Business Cars" a "B" signified this in front of the number, after all this parlor car is designed for some real revenue & business, the best kind!

Now let's see the lavish interiors. The wallpapers & Persian carpets, gold fittings, a piano in the "Fourplay Lounge" along with a love seat & cushions, a stove & chairs & table, then the 2 bedrooms, one with an on-sweet complete with a huge bath-tub & a toilet & beer room fridge at the back. I was flabbergasted by the whore'll thing.

Snappy took these fotos in the shop before the roof was lowered on.

The girls don't have far to walk to work as its jest down the tracks a short stroll.

Well the Mayor put on his new red hat & Barkeep got that darn fridge door open thanks to the new church key the preacher give him & everyone had a DW to celebrate. Sheriff nailed up a sign sayin' no standard gauge firearms are allowed inside so them Colt 45's are viewed as them's that take the easy side of railroadin see.

So we look like havin' lot's more adventures in these parts coor's there's always sumtin hapnin in Silverton.
